

**New
for
Gen3:**

**the addition of
pass-through
plugs and
switches on
socket bars, and
hingeing extenders
on frames, which greatly increases
ease of use and versatility.**

J-BOX INDUSTRIES strives to accommodate the ever-changing needs of the entertainment lighting industry. We are now in the process of developing a line of accessories, beginning with the GelClip; a sliding clip which allows gel placement anywhere in the front half of our J-BOXes.
